## Aircraft Story

The current owner acquired the aircraft in 2018 and is the third owner of this aircraft. Professionally managed and operated predominately in the US (with occasional trips to Canada), the aircraft is currently based in the Detroit, MI area (KPTK) and always hangared. As a result, this aircraft is cosmetically in great shape inside and out. The aircraft recently completed a 96-month inspection and engine overhauls, making this a perfect turnkey opportunity.
