## About this Aircraft

The Hawker 900XP is a versatile and highly regarded midsize business jet, known for its combination of performance, comfort, and efficiency. Powered by two Honeywell TFE731-50R engines, the 900XP offers excellent range of up to 2,900 nautical miles, making it ideal for transcontinental flights. It comfortably accommodates 8 passengers with a spacious cabin featuring high-end finishes including leather seating and ample storage space. The engines and APU are covered under Honeywell MSP Gold. With a maximum cruising speed of Mach 0.83 and exceptional fuel efficiency, the 900XP is a cost-effective solution for both business and leisure travelers seeking a blend of performance and luxury.

# 2007 HAWKER 900XP

SN HA-0013

## Highlights
